

FibreGrid GRP Roof Walkways

Product Description

Bespoke Roof Walkway Solutions by the Experts.

FibreGrid GRP Roof Walkway grating provides an anti-slip, level walking surface across roofs as well as a demarcation route which protects the roof's surface from unnecessary foot traffic and potential damage.

In potentially highly trafficked areas of roofing, where regular access may be required for maintenance regimes; GRP Roof Walkways distribute the load evenly on the roof and thus reduces wear and tear on the roofing system itself.

Each section of the walkway is manufactured in glass reinforced plastic with enhanced slip resistance for adverse weather conditions.

Southern Office: Unit 2, Civic Industrial Estate, Homefield Road Central, Haverhill, Suffolk, CB9 8QP
Northern Office: Kingston House, 3 Walton Road, Pattinson North, Washington, Tyne & Wear, NE38 8QA
